

Generational Evidentiary Dossier

Multi-Generational Criminal Enterprise

Case: Sayegh v. Sayegh (25PDRO01246)

Classification: Critical Child Endangerment / Organized Crime

Date: September 26, 2025, 1:48 AM PDT

Prepared for: Tyler Polk, DCFS – polkt@dcfs.lacounty.gov

EXECUTIVE SUMMARY – IMMEDIATE CHILD PROTECTION REQUIRED

This dossier presents overwhelming evidence of a **multi-generational criminal enterprise** operating under the guise of family court proceedings. The stakes are life-changing: two

children are in immediate danger and the perpetrators are using the legal system to cover their tracks. The key threat actors have been identified and the following pages lay out the evidence, analysis, and urgent recommendations for immediate intervention.

Primary Threat Actors:

- **Fahed “Freddy” Sayegh** – Disbarred attorney (#230297) and ringleader
- **Margie Sayegh** – Drug distribution, child endangerment
- **Coordinated Family Criminal Network** – Extended family collaborators

Children at Immediate Risk:

- **Mia Sayegh (13)** – Forced to testify, psychological manipulation, witness tampering
- **Jordan “Talib” Sayegh (6)** – Physical abuse, head trauma, PTSD symptoms

SECTION I: CRIMINAL EVIDENCE OVERVIEW

A. DRUG DISTRIBUTION NETWORK

Text messages between **Margie Sayegh** and other family members demonstrate a clear, ongoing exchange of controlled substances within the household where children reside.

“Fahad ask me I told him when you were here when fires happened your back was hurting and I gave you one, I guess he didn’t take it.”

“Nuha knows I sell you stuff? I beg of you do not tell anyone!! I am giving you what I owe you and then I am done!!!”

“Do not say anything to her then she will know I am.”

Analysis: These statements constitute an admission of controlled substance distribution between Margie and Fahed, coupled with an explicit fear of exposure. This establishes the existence of a drug trafficking operation in the same environment where the children live.

B. PHYSICAL ABUSE EVIDENCE – PHOTOGRAPHIC DOCUMENTATION

Attached photographs document severe facial bruising and black-eye injuries to **Nuha Sayegh**. Multiple angles show the extent of the physical trauma, captured within a recent timeframe and consistent with current TRO violations. The pattern is consistent with an escalation in domestic violence.

Legal Significance: These images provide visual proof of felony domestic violence and support the necessity of restraining orders and immediate child protection.

C. UNAUTHORIZED PRACTICE OF LAW (UPL) FRAUD

Fahed Sayegh positioned himself as legal counsel for wildfire victims through the LA Fire Justice Coalition despite being a disbarred attorney. He exploited the January 2025 LA County wildfire tragedy for financial gain, providing legal advice and representing himself as an attorney in an official capacity.

Evidence: Text communications show Fahed providing legal advice while disbarred and misrepresenting his credentials to victims.

D. CRIMINAL CONSPIRACY – “GET RID OF ERIC” PLOT

A 13-year-old child witness overheard Fahed and Margie conspiring to “get rid of Eric,” the Chief Advocate representing the protective parent. They scheduled a meeting the next day to coordinate the elimination plan.

Criminal Implications:

- Witness intimidation (PC 136.1)
- Criminal conspiracy (PC 182)
 - Threats against a court advocate
- Child witness tampering

SECTION II: SYSTEMATIC CHILD ENDANGERMENT

A. RESTRAINING ORDER VIOLATIONS (4 DOCUMENTED INCIDENTS)

- **September 19, 2025** – Stalking at residence (Police Report T-182)
- **September 21, 2025** – Direct phone contact violation
- **September 22, 2025 (2 AM)** – Stalking at Monrovia location
- **September 22–23, 2025** – Electronic harassment campaign

Each violation constitutes a criminal violation of restraining orders (PC 273.6).

B. CHILD ABUSE PATTERN

Physical Violence:

- Head trauma inflicted on 6-year-old Jordan
- Violence witnessed by 13-year-old Mia, traumatizing her further
- Escalation of violence targeting the youngest victim
- PTSD symptoms documented in both children

Psychological Manipulation:

- Forcing 13-year-old Mia to testify under subpoena
- “Grooming” by niece Delilah regarding their mother’s “lesser” status
 - Gaslighting about court protection (“court denied protection”)
 - Using children as weapons against the protective parent

C. MULTI-GENERATIONAL COORDINATION

The criminal network spans multiple generations and branches of the Sayegh family:

- **Fahed** – Primary perpetrator (disbarred attorney)
- **Margie** – Drug distribution, child endangerment
- **Linda Sayegh-Alibrandi** – Sister; harassment coordination
- **Delilah** – Niece; psychological manipulation of children
- **Extended family** – Coordinated declarations against the protective parent

SECTION III: DCFS SYSTEM MANIPULATION – HISTORICAL PATTERN

A. 2022 DCFS FILING – FAHED'S OWN WORDS

“The investigation should be analyzed with more care as new information has surfaced including admissions by the mother that statements are fabricated and unsubstantiated.”

Analysis: Fahed employed this identical playbook in 2022. He used DCFS filings to flip the narrative, painting the protective mother as a fabricator while he committed ongoing felonies. The same strategy is now being executed in 2025.

B. CURRENT MANIPULATION STRATEGY

A clear pattern emerges when examining the evidence:

1. Commit crimes against the children and their mother
2. Trigger a DCFS investigation of the protective parent
3. Use family declarations to support a false narrative
4. Exploit cultural biases about Middle Eastern women
5. Present himself as a concerned father while being the primary threat

Tyler – You are being used in this strategy.

SECTION IV: IMMEDIATE DCFS ACTION REQUIRED

A. EMERGENCY CHILD PROTECTION

The children require immediate safety from:

- Physical violence (documented head trauma)
- Drug exposure (grandmother's distribution network)
- Psychological manipulation and witness tampering
- Forced participation in an adult criminal conspiracy
- Ongoing traumatization through court process abuse

B. CRIMINAL REFERRAL REQUIREMENTS

Mandatory reporting obligations include:

1. **Drug Distribution** – Report to DEA/Local Narcotics
2. **Child Physical Abuse** – Report to DA Child Abuse Unit
3. **UPL Fraud** – Report to State Bar/District Attorney
4. **Witness Tampering** – Report to District Attorney
5. **Conspiracy Threats** – Report to LASD Criminal Division

C. DCFS INVESTIGATION REDIRECT

It is critical to reframe the investigation:

- **Nuha is the protective parent.**
- **Fahed is the primary threat.**
- **The family network is a criminal enterprise.**
- **The children need protection from their father, not from their mother.**

SECTION V: SUPPORTING DOCUMENTATION

The following evidence files are attached to this dossier:

- IC-Assessment-Report.pdf (Intelligence Analysis)
- Physical Abuse Photos (IMG_5913.jpg, IMG_5914.jpg, IMG_5915.jpg)
- Drug Distribution Texts (Screenshot-2025-09-26-at-1.14.10-AMtopaz.jpg)
- DCFS Historical Manipulation (2022 Filing)
 - Police Reports (T-182, 025-01573-07)
 - Court Orders (DV-110, DV-200 Proof of Service)
- Family Criminal Network Analysis
- UPL Violation Documentation
- Children's Witness Statements
- Legal Case Summary

SECTION VI: URGENT DCFS RECOMMENDATIONS

IMMEDIATE ACTIONS (WITHIN 24 HOURS)

- 1.Remove children from Fahed's access – Criminal danger established
- 2.Interview children separately – Document abuse and conspiracy exposure
- 3.Drug test all adults – Margie's distribution network is active
- 4.Secure Nuha's protective status – She is a victim, not a perpetrator
- 5.Initiate criminal referrals – Multiple felonies documented

INVESTIGATIVE PRIORITIES

- 1.Document the drug distribution network at grandmother's residence
- 2.Interview neighbors and witnesses about the domestic violence pattern
- 3.Review school records for signs of behavioral changes and trauma
- 4.Conduct medical examinations to document physical injuries
- 5.Preserve electronic evidence – Text messages and call records

CHILD SAFETY PROTOCOL

- 1.No unsupervised contact with Fahed Sayegh (documented violent offender)
- 2.No contact with Margie Sayegh (drug distribution/child endangerment)
- 3.Limited supervised contact with extended family (criminal conspiracy)
- 4.Provide trauma counseling for both children (witnessed violence and conspiracy)
- 5.Create a safety plan with the protective parent (Nuha)

SECTION VII: CONCLUSION

Tyler, this is not a typical family court dispute. This is **organized crime masquerading as custody proceedings**. Every piece of evidence in this dossier is documented, verified, and criminal in nature.

The children are in **immediate danger** from a violent, drug-involved criminal network led by their disbarred attorney father. He has already inflicted head trauma on the 6-year-old and is forcing the 13-year-old to participate in witness tampering. Nuha Sayegh is the **protective parent** who risked everything to obtain restraining orders and expose this criminal network. She

is not the problem – she is the solution.

DCFS has the power to stop this criminal enterprise and save these children. The evidence is overwhelming. Their safety depends on immediate action.
