Paula,

This is Eric Jones, Power of Attorney for Kathleen Hart (Case #80404096), following up on our previous conversation. I was able to speak with Kathy a few times yesterday and she wasn't super lucid but sporadically she had moments that seemed encouraging.

Are there any critical/urgent updates on your end? Can we schedule a call to ensure we can connect? I'd really like to get an update please.

I am writing to report a critical escalation. We have received written confirmation from Ms. Hart's primary wealth management firm, UBS, that perpetrators have successfully compromised her account's contact information. This was a direct attempt to intercept secure legal documents and take control of her primary financial assets.

This evidence, combined with the previously reported bank fraud, requires immediate state intervention to prevent irreparable financial harm.

I need to know what immediate protective actions, specifically an emergency asset freeze, you can initiate today based on this new evidence of an active and ongoing crime.

I am available for an immediate call.

Eric Brakebill Jones

Power of Attorney for Kathy Hart
