Quote: "I'm on food stamps, $11,000 behind in rent, no heat for my kids. . . "

From: Nuha Sayegh's FL-150 Declaration (filed by Sara Memari) Date: November 18, 2025

Section on Employment: "I have not been able to operate my business due to my home being affected by the Altadena fires."

Listed Income from Employment: $0 Listed Other Income Sources: "R has been giving me voluntary support. The amount varies."

CONTRADICTION IN FILED FL-150: Despite stating business closure due to fire and no employment, the form shows $5,500 in average monthly income in the calculation section.

This contradicts: 1. Nuha's statement she is on EBT/food stamps (requires $0 or very low income) 2. The form's own statement about business closure 3. Nuha's explicit warning to Sara about the error

Actual Income: $0 from employment Filed Income: $5,500 (ERROR) Impact: Support order calculated incorrectly, reducing monthly support
