Hi Dr. H,

No I was never able to actually access Canvas or my email. Some faculty and friends got me pieces of things I needed and then sent them to me via my personal email. But I wasn't able to get anybody from your class mostly because I don't really know who is in your class.

I just want to make sure I'm 100% aligned with everything even though I feel fairly confident about it. So whichever way would be most convenient for you to allow access it would be greatly appreciated.

Thank you,
Eric
