Dear Professors Clark, Zamora-Sánchez, Davis, Calderon, and Dr. Huynh-Hohnbaum,

At 3:22 PM today (Mon May 12) my Cal State LA account **ejones38@calstatela.edu** was unexpectedly locked (see attached screenshot). ITS Help Desk ticket has been opened, saved, and archived, and I have requested an emergency unlock.

All remaining course deliverables (due May 13–15) are on schedule for completion. If the lockout persists, I will transmit each assignment from this personal address and upload to Canvas immediately once access is restored.

Requests

1. Please acknowledge this message so I can confirm you are informed despite the outage.
2. Should the lockout extend beyond the due date, I respectfully ask that no late penalties be applied, provided the work is emailed before the deadline and uploaded promptly after access is regained.
3. Let me know if any additional format or verification is required.

Thank you for your understanding and support while ITS resolves this issue.

Sincerely,

Eric Brakebill Jones
