Subject: Health Insurance Coverage – December 2025 and 2026 Plan

This message serves to confirm the following:

1. On December 4, 2025, I went to CVS to pick up my medication and was informed that our Health Net coverage had been terminated.
2. I immediately called Health Net to determine what happened. I was initially told that coverage for December had been paid and that the plan would be reinstated.
3. Health Net later informed me they could not reinstate coverage because Covered California received a call on or around November 20, 2025 requesting termination of the plan.
4. I spoke with Covered California and escalated the issue. As of today, I was able to restore our December 2025 coverage through that escalation.
5. Covered California also advised that there is information on record connected to the prior termination that must be corrected by the person who initiated or provided it. They stated they received conflicting information that they refused to disclose to me.

You must call Covered California and correct whatever was submitted that caused the termination request on or around November 20, 2025.

This issue created a serious and unnecessary disruption in coverage.

6. Because of the uncertainty created by the termination, I also purchased and paid for a full family PPO plan for 2026.

Please do not contact Covered California to alter, cancel, or change anything related to the 2026 plan. The full family PPO plan has already been selected and paid for.

Please confirm in writing once you have contacted Covered California and corrected the issue on their record.
