I, NUHA SAYEGH, declare:

1. ADMISSIBILITY OF RECORDING (PC 633.6): I submit the audio recording of Jan 2, 2026 (Exhibit A). This recording was made by the minor child, Mia Sayegh, who reasonably believed it would provide evidence of domestic violence. It is admissible under Penal Code 633.6(b).

2. THE 'FRIED FISH' HAZARD: In the recording, Mia reports chemical odors ('Fried Fish') consistent with methamphetamine. The deputies fail to investigate this hazard.

3. WITNESS INTIMIDATION BY POLICE (THE 'STRANGER' THREAT): When Mia attempts to express fear, the deputy threatens her with foster care to silence her: 'If you call the police saying... you're afraid... we have to take you... to a stranger's house' (Transcript 13:30).

4. NORMALIZING PREDATORY BEHAVIOR: Mia reported that her uncle (Nabiel) was being 'very touchy.' Instead of protecting her, the deputy stated: 'You're a girl... you're gonna see that guys are gonna get a lot more creepier... Not just uncles but everybody' (Transcript 18:43). The police are normalizing sexual harassment to a 13-year-old.

5. THE JAN 2 TEXT MESSAGE (EXHIBIT B): On the same night, Mia sent me a text stating: 'his brother keeps flirting with me... he's definitely on drugs... please pick me up but like don't let dad get mad.' This corroborates the immediate danger.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.
